# How to read a Dialog map

To read a map, start up here in the
upper left corner and wind thru the map
left to right and down

Idea, option, alternative *

Supporting argument,
pro, benefit,
advantage

An asterisk means
there's more detail
'inside' the node *

Objecting argument,
con, disadvantage

Question, problem, or issue

New question about this idea

Another map *

Idea, option, alternative

A note about the idea

The arrows go "backwards"...

because

...they point from the new
node back to what it's about

More about dialogue mapping & training *
